

Welcome to

Redvers

The Town of Redvers has a population of 1008 and is located in the southeast part of the province. We are sharing some pictures of our community to allow the judges a sneak peak at our small but vibrant community.

Pictured here is the sign at our Town Office, below to the left is our sign that is located coming into town on the southeast corner. Below is our town sign that is located at the corner of Broadway Street and Highway #13.

In 2024 we added a Community SaveStation which was funded by Steel Reef and was placed in front of the Town Office.

Some of our Bloom Committee members hard at work planting our memory pots, cement planters and flower beds. Our flowers are sourced from Quennelle Greenhouse which is located in Wauchope, SK, approximately 10km west of Redvers.

In 2023 we added 4 large self watering boulevard planters to our existing 18 self watering hanging planters. Again this year we chose to keep all of our flowers a consistent color scheme.

Mission Statement:

Creating Diverse Opportunities for the Future –Come Grow with Us!

Vision Statement:

Engaging All Generations to Create Prosperity and Quality of Life

Grad banners are put up by maintenance each year which includes students from Redvers School and Bellegarde School. Hanging underneath the grad banners are our hanging planters that are hung along Broadway Street. The top middle picture is one of our Memory Pots and top left is a close up of one of our hanging baskets.

The top 3 pictures are from Hancock Park in 2024 which is located in the middle of the community. There is a gazebo, perennial flowers, shrubs, etc. for the community to enjoy. Last year, we received funding from the Redvers & District Lions Club to purchase an inclusive picnic table for this park and funding to install a path and cement area which will house the new picnic table and allow for inclusive access to the park.

The bottom 3 pictures are of Larsen Park which is located in the south part of town within our newest subdivision. We have incorporated "Hometown History" to pay tribute to past community members, remembering the details of our past that brought us to now and our future. We have been able to purchase 5 Hometown History benches, 5 Dog Waste Stations and trash cans through that program, sponsorship from local businesses and community members. In 2022 the gazebo that we had at this park had to be removed due to damage from the weather. We are always looking for and writing grants to enhance these areas.

In 2016 we incorporated "Memory Pots" into our beautification. Since inception these have become very popular and line Broadway Street. Community members and visitors can walk our downtown corridor and remember and reminisce about loved ones lost. In 2023 we added QR codes to those that wanted and you can scan the code and listen to a song or poem of the families choice or visit their obituary online. Once again, we sold out at 69 Memory Pots!

The top left picture is of the Jean Ericksen Lily bed and flowers at our Tourism grounds.
Below gives a view from Methuen Street of our Log Cabin, Mountie and horse.
The top right picture is of our water tower that will be decommissioned in the next few years,
but will remain as a landmark for our community.

In 2024 we changed all of our street signs from the usual green and white ones to white with red writing and incorporated a topper with our logo. The topper is magnetic which allows us to add decals throughout the year depending on the season. For example: Remembrance Day and/or Christmas/Winter.

Our Bloom Committee not only helps with the Town of Redvers' flowers and beautification efforts, we work together with other organizations. Pictured on the top right is two of our committee members adding flowers to the Redvers School flower bed as it was looking a bit sparse. During the summer when school is out, our beautification summer student will water these flowers. They will help water hanging pots at the ball concession which is located at the Rec Grounds and we helped water and plant at the Tourism grounds, mainly in the Jean Ericksen flower bed.

To keep all of our planters, pots and flower bed straight and well cared for, we numbered each one this year. From there, the Bloom Committee, our office staff and our beautification summer student each took a section of pots and will check on them once per week.

Our beautification summer student is responsible for watering everything as need and we provided him with a checklist so we can keep track of progress and details.

Our recreation centre, top left, is an active facility during the summer and winter months. During the winter there are many hockey games and tournaments, and during the summer, the outdoor pool keeps everyone cool and is a place for families and friends to gather. The top right picture is one of 4 ball diamonds that we have on our rec grounds. Bottom left is known as the “Cook Shack” and is used for summer programming, cookouts and the annual Knights of Columbus pancake breakfast. When people visit our community and come for a ball tournament, wedding, community event, etc. they are thrilled to find out the campground is located within the rec grounds. This makes celebrations easy to access and everyone in the same area.

Located in Redvers is the Redvers School that educates children from Kindergarten to Grade 12. Approximately 10 km southeast of Redvers is a French immersion school with students attending from Redvers and surrounding communities.

The Redvers Activity Centre is a wonderful organization for persons with disabilities. They provide programming, daily routine and job coaching for their clients. There is a building where the staff and clients attend on a daily basis, as well as three group homes located in Redvers.

Redvers is very fortunate to have a fully operation Health Centre in our community. There is 24 hour emergency, ambulance services, long term care and a medical clinic. This centre was 100% community funded and is fully operational.

The Redvers Library boasts with activities and programming throughout the year. In 2024, the Town of Redvers and the Library collaborated together to offer Senior Support Sessions which was funded by the Senior Mechanisms Fund and was well received by the community.

On the top right are pictures of our town banners that were added to our community in 2023 and our flags were added in 2024. For these we used our newly designed logo and our retro logo, both designed within our office.

On the bottom right side is what we refer to as the “Greenspace”. This is a piece of land owned by Advantage Co-op that was a gas station in the past, therefore unusable land. The Town maintains the lot and we placed 3 Memory Pots there as well as cement benches. Our Bloom Committee and Maintenance team worked hard this summer to clean this area up and trimmed the trees. We are very proud of the teamwork that went into this!

After many years of the Cenotaph not in the Town's name, we worked to acquire this piece of property. The base was painted in 2022, Memory Pots are placed here and the flower bed that surrounds the monument is planted by the Town. In 2025 the Soldier Monument will be cleaned by our Cemetery Headstone Cleaning Contractor.

Below is our cemetery which is located a few kms north of town. Although it is not directly in Town, it is Town owned and we contract the caretaking of the property to an outside person.

In 2023 we added a "Little Library" which holds a set of history books, a map of the cemetery and a document with all persons buried.

In 2024 we lost one of our large evergreen trees to a wind storm. Although tree roots can cause issues with headstones we would like to keep our tree population at the cemetery in tact and thriving.

For many years located on the northwest side of Redvers along Highway #13, there were two large highway signs recognizing two athletes that were born and raised in Redvers. Our Hometown History project included three gentleman that impacted our community in the past. On July 29, 2024 these signs were erected and we had a sign presentation to honour these men. Their families attended the presentation and we had members from Agribition attend.

Redvers Kids Clean Up for Earth Day

June 13, 2025 by Redvers Admin

Redvers Kids Clean Up for Earth Day with Sweet Reward

The Town of Redvers held a community-wide Earth Day initiative from April 21 to May 2, encouraging local youth to help beautify the town while school was out for Easter Break. Kids were invited to collect small bags of garbage from around the community and bring them to the Town Office. In return for their efforts, participants received a coupon for a free ice cream cone from W&N Ice Cream, Redvers' local ice cream shop.

The program was a success, with several kids taking part in the cleanup while enjoying time outdoors. The sweet treat was both a reward and a reminder that taking care of the environment can be fun—and delicious!

The New Redvers Transit Bus is Here!

After months of planning, anticipation, and community involvement, our brand-new transit bus has arrived!

The project was made possible through a successful application to the federal Rural Transit Solutions Fund, which awarded Redvers \$200,000 to help purchase the new vehicle. The funding is part of a national initiative aimed at improving mobility options in rural and remote areas, where transportation services are often limited.

Recognizing the need for reliable transportation—particularly for seniors, people with mobility challenges, and those without access to a personal vehicle—the Town of Redvers applied for the funding last year. The process, from approval to delivery, took several months, but the wait was well worth it as the new transit bus now stands ready to serve the community. The van we were using is 10 years old, and it was thought to take a proactive approach and replace it sooner than later.

In addition to the federal support, the purchase of the bus was made possible by significant financial contributions from Kingston Midstream, The Richardson Foundation, and Tundra Oil & Gas. Their generosity ensured that the town did not have to allocate any funds for this purchase in 2025.

The excitement around the new transit service extended beyond just the arrival of the bus. The Town of Redvers invited the public to participate in a community vote to select the decal design that would decorate the vehicle. Residents were encouraged to cast their votes, making the bus not only a practical addition but also a symbol of community pride and involvement.

Redvers Transit covers a variety of needs, providing mobility for seniors, persons with disabilities, and residents who are unable to drive.

We are incredibly grateful to the Government of Canada, The Richardson Foundation, Kingston Midstream, and Tundra Oil & Gas for recognizing the importance of rural transit and for stepping up and supporting the wellbeing of Redvers residents. This new bus will make a meaningful difference in the lives of many people in our community.

In total we planted 26 trees -grant from TCTrail for \$1,600 and the Town matched that amount for a total of \$3,200. The plan moving forward is to plant a few trees each year increasing the tree canopy in our community.

These are some pictures of the perennials at the Hancock Park. Our Bloom Committee has been working very hard at cleaning this space up as it has been neglected for several years. In 2025 we moved 2 cement planters to this park.

Pictures of some of our Broadway Street businesses showcasing our Memory Pots.

Bloom Committee Ideas

Broadway Street

Plant trees on boulevard
Add more large planters

Cemetery

Gazebo and sitting area
Cement slabs for headstones

Cenotaph

Benches and shade area

Greenspace

Trim trees and bushes –done
Mural on the east side of the Hotel

Hancock Park

Trim shrubs, bushes, etc. –done
Plant and separate perennials
Plant more trees
Accessible play structure
Remove fence
Add more signs for perennials

Larsen Park

Create a perennial bed
Plant more trees
Accessible play structure
Gazebo

Tourism

Add more perennials to Jean Ericksen flower bed
Create a large flower bed beside the Mountie & horse

General & Miscellaneous

Fix up tennis courts
Lawn Care/Yard Weekly Award
Murals on sides of various different buildings

Currently Working On

Sign Corridor
Removing dead hedge on north side of ball diamonds
Hometown History
Applying to granting agencies for accessible play structures
Applying to granting agencies for trees
Painting curbs, yellow and blue for accessible parking
Changing crosswalk from yellow to large white rectangles
SGI Grant for Radar Signs

2025 Committee Members: Kandyce Fairgrieve, Thyra Hjertaas, Marion Laval, Heidi Magotiaux, Liz Purvis, Sandie Quennelle, Shannon Pirlot, Val Patron, Lorraine Magotiaux, Dawn Eilers, Cathy Gaudet, Jena Cowan, Raylene Gordon, Tricia Pickard, Laurie West-Burnham, Kaylee Ohnander and Bri Borreson.
