MAYOR'S YEAR IN REVIEW

As we reflect on the past year, we are proud of the progress our community has made and grateful for the support, patience, and collaboration shown by residents, staff, volunteers, and community partners. Together, we've accomplished a great deal, and there is much to look forward to in the year ahead.

Highlights from 2025

One of our most significant milestones this year was the final approval of the Water Treatment Plant (WTP) plans. With this important step completed, we have

now entered the tendering phase and look forward to breaking ground in the coming months.

Thanks to a generous donation from the Lions Club, we were able to add an accessible ramp, along with a new concrete sidewalk and pad, at the Hancock lot. The Lions Club also funded the construction of our new dog park, which is now open and being enjoyed by many residents and visitors. Public safety and accessibility continued to be priorities. New pedestrian control signs were installed on Broadway Street, and new speed control signage was added at key town access points — all funded through SGI grants. We also saw continued improvements to our infrastructure, including:

- Two new catch basins installed on Souris Avenue to improve water drainage
- New curbing and pavement improvements on Warren Street near the Redvers Activity Centre
- New pavement, sidewalk, and an accessibility ramp on the north side of Souris Avenue

Repairs to five street swales to ensure proper water movement. We also updated and reviewed our Asset Management Plan, resulting in a multi-year strategy for future road, sidewalk, and infrastructure upgrades.

In partnership with the RM of Antler #61, we ordered a brand-new fire truck — an important investment in public safety. Our Fire Department also made us proud by assisting with firefighting efforts in northern communities.

Other highlights include:

- Replacement of our transit bus, 100% funded through grants
- Expanded transit access to include students and all community members
- Designation of an area within the cemetery for cremation burials
- Additional tree planting throughout town

Continued beautification efforts that earned our community a “5 Blooms” rating through Communities in Bloom — a huge thank-you to our local Bloom Committee for their dedication

Challenges Faced This Year

One of the biggest challenges was navigating the recent SAMA reassessments. Council worked hard to implement a modest tax increase while keeping fairness for ratepayers at the forefront. Another challenge was timing. Many of our projects are smaller in scale, and in today's construction environment, these can sometimes be delayed as contractors prioritize larger projects. Despite this, we are pleased with the progress made.

What We Are Most Proud Of

We are especially proud of:

- The road and sidewalk repairs, including improved accessibility ramps
- The addition of new road safety signage throughout town
- Upgrading our transit bus
- Ordering our new fire truck and the dedication shown by our Fire Department

Achieving our Communities in Bloom success, and next year, we'll be entering the competitive category

What We're Hearing from Residents

Residents often tell us they are pleased to see continued investment in streets and sidewalks, and they appreciate the reinvestment happening throughout the community. While no one enjoys tax increases, many understand their necessity when they see visible improvements. We also frequently hear how clean, welcoming, and attractive our town is, something we can all take pride in.

Looking Ahead to 2026

In the year ahead, our focus will include:

- Securing additional grants to support future projects
- Breaking ground on the Water Treatment Plant, ideally in early spring
- Encouraging new businesses to fill vacant buildings
- Discussions on lot promotions in the Perreux Subdivision
- Developing a treed green space at the southeast entrance to town and planting more trees in strategic locations

Further asset management particularly our underground infrastructure, pavement, sidewalks and increasing accessibility throughout our community

Reflections on Leadership

One of the most challenging aspects of being mayor is finding the balance between “needs” and “wants,” while making decisions that serve the entire community, not just one group or interest. Rising costs continue to be a challenge, which is why grant funding remains such an important tool for us. The most rewarding part of this role is seeing projects completed and hearing positive feedback from residents and visitors alike.

Looking to the Future

Our long-term goals remain focused on reinvesting in infrastructure, attracting new residents and businesses, selling lots in the new subdivision, and addressing ongoing drainage concerns. We also continue to work toward attracting a hotel to our community.

By the next municipal election, we hope to see:

- The Water Treatment Plant fully operational
- Four major sidewalk projects completed

Thank you to everyone who contributes to making our community such a wonderful place to live. Together, we are building a strong, vibrant future.

WHY: Coffee grounds are high in nitrogen, phosphorus, and potassium, which are vital for plant growth. They act as a slow-release fertilizer, particularly beneficial for leafy greens, tomatoes, and roses. Crushed eggshells provide a significant amount of calcium, which is essential for strong cell walls in plants. This is particularly important for preventing blossom end rot in tomatoes and peppers. Adding coffee grounds to your soil enhances its structure and increases moisture retention, and when added to compost or directly to the soil, crushed eggshells improve soil aeration and drainage, which is crucial for healthy plant development. Eggshells also contain trace elements like magnesium, potassium, and phosphorus, contributing to overall plant health. Coffee grounds can help repel certain pests.

HOW TO: Rinse and dry eggshells after use, then crush them into small pieces. Allow coffee grounds to dry out before storing them in a container. Mix crushed eggshells and coffee grounds into the soil at planting time or sprinkle them around existing plants.

WHEN: While both coffee grounds and eggshells are beneficial, it's important not to overapply them, as excessive amounts can lead to nutrient imbalances. You can repeat this process every few months or at the start of a new growing season to maintain nutrient levels in the soil. If you prefer, both materials can be added to your compost pile, where they will break down and enrich the compost over time.

By incorporating coffee grounds and eggshells into your gardening routine, you can enhance soil quality and promote healthier, more productive plants.

From My
CORNER
to Yours

Hi, I'm Rhonda Martin, the face behind the design of *Covering the Corner*! I've been putting this newsletter together since the later half of 2018, so long, I'm not even sure the exact date! For those of you that don't know me, I live in Redvers, with my husband Calvin, and teens, Axton & Kinsley, and the boss of the house, our golden retriever—cross, Maizey. I work full-time for BDO Canada LLP here in town, love to travel and go on adventures, chatting with my friends, and supporting my teens with whatever it is they are doing. And to stay in the good books with my husband, I am the secretary/treasurer of the car club we belong to, Cornerstone Cruisers. If you know my husband, you know he's a vehicle guru!

I hope you all enjoy *Covering the Corner* each month, I certainly enjoy building it! This month, and going forward, we have a few new things going on. 1—the photo challenge, be sure to check page 10 to see what it's all about and 2—on page 11, you'll see a fun little task. Try and find the Mountie & Horse. I will have it hidden each month, somewhere within the newsletter. When you find it, stop by the Town Office and say hi to gals there, and have your name entered in for a quarterly draw! We're always looking for ideas, stories, submissions from clubs etc., so feel free to send them our way if you have anything!

Whether you're a longtime reader or new to the newsletter, I'm so glad you found your way to this little corner of the community.

~Rhonda

ALL ABOARD!

Submitted by Jocelyn Hainsworth

This stretch of days between the middle of December and the middle of January are a bit crazy. Some people refer to this time when the daylight hours shrink to their shortest and the night time takes over our clocks as the 'dead of winter' but really, there is no busier time.

There are parties and concerts and family gatherings to plan and attend. Whether the mood strikes you, or not, you have to haul out all the tubs of Christmas decor and put up a festive display of lights and garland and trim the tree. There are menus to plan and meals to prepare. There is shopping to do, other gifts to create, and so much wrapping to get done if you can find a spare moment and some alone time to accomplish this secretive task.

At the same time the year is also winding down. There are year ends to do and tax implications to look at. Personally, if I can find a spare minute, I like to sit down with the year's calendar (the old-fashioned paper kind that hangs on a wall) and browse through the pages' notations. All of the appointments, the meetings, and visits recorded, acting as a diary of where we were and what we were doing throughout the year. The minor day-to-day details that stitch our lives together.

As I write this we are so close to the end of 2025 that it almost feels like I have one foot in both the year that is ending and the one about to begin. Memories of the past are triggered by songs on the radio or ornaments as I put them away, but I also find myself preparing for what comes next – 2026 is shaping up to be quite busy.

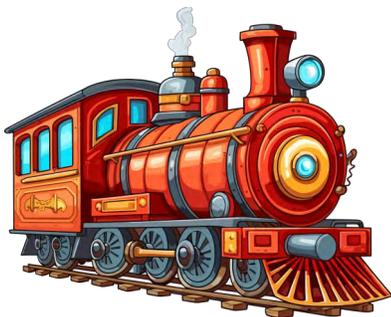

Maybe how I'm feeling is best described as being like a passenger on a train. This week we are just rolling through the station where 2025 transitions to 2026. We are leaving the congestion of December behind and heading out into the open countryside of the New Year. We are not in charge of the direction of the train, nor the speed we are going, and there is no safety pull to make to train stop if we want off. We are just along for the ride. The best we can do is hope that the train and its tracks are well maintained and that the scenery is pretty.

There are a few focus points on our horizon for this year's portion of our train ride: we are going to spend a week in Mexico's sunshine when Canada's weather makes it make the most sense, and then there is my bucket list dream of a river cruise in Europe in the spring. Farther down the road there may be a trip to Africa to visit grandkids although nothing is for sure yet, and it looks like this is the year we go from being great grandparents to being Great-grandparents. Unfortunately for us this will take place in Australia and our train is unlikely to take us that far in 2026.

While these are the big, exciting things coming our way, it will be the commonplace undertakings of everyday life which provide the foundation of our lives over the next year.

With mere hours to go before the fireworks go off and Auld Lang Syne is sung around the globe we wonder what the future holds in store. This will be my 70th annual excursion. There is only so much we can plan, and really, there is nothing we can actually control. Sitting in the passenger cars as we do, we can't even see where the tracks are headed. We are just along for the ride. Here is hoping that, no matter where we are or end up, that we share our time and space with people we love and are there to support each other if the going does get tough.

Happy New Year to everyone on this train! Maybe we can meet up on the observation deck some time and enjoy the scenery together!

COUNTRY AND ROOTS RECORDING ARTISTS BLAKE BERGLUND AND LACHLAN NEVILLE
TO PERFORM IN REDVERS ON JANUARY 29TH

The Redvers Arts Council is presenting local SE Sask country musicians Blake Berglund and Lachlan Neville in concert on Thursday, Jan 29th upstairs at the Redvers Legion. Blake is from Kennedy and no stranger to Redvers, having performed here several times over the years. Blake is known for his independent approach to country music, his strong connection to rural farming life, and his often-satirical look at politics, but the heart of his live shows is his story telling. This concert will be Blake's first in Redvers since releasing his latest record, *What's Left of the Right*.

Performing along with Blake is Rocanville's Lachlan Neville. Lachlan is a rising young singer-songwriter known for his folk, country, and Americana music with storytelling lyrics, influenced by artists like John Prine, Bob Dylan and Jason Isbell. Lachlan is gaining recognition for his new self-titled debut album and performances across Western Canada. This show will be Lachlan's first appearance in Redvers; however, he recently opened for Jess Moskaluke for her Maryfield concert this past fall.

Both Blake and Lachlan shared the stage for a series of acoustic concerts on their *Trouble with the Truth Tour* in 2025 across Saskatchewan and Alberta, and they now bring their talents to Redvers on Thursday, January 29th at 7:30 for a night of stories and country roots music. It should not be missed.

Advance tickets for this concert are available (\$25 each) at the Redvers Town Office or Redvers CIBC or by contacting Graham at 306 452-7124 or reaching out to any Redvers Arts Council board member.
